All You Need to Know About the Music Business 2019-10-29 all you need to know about the music business by veteran music lawyer Don Passman, dubbed the industry bible by the Los Angeles Times, is now updated to address the biggest transformation of the music industry yet: streaming. For more than twenty-five years, all you need to know about the music business has been universally regarded as the definitive guide to the music industry. Now in its tenth edition, Donald Passman leads novices and experts alike through what has been the most profound change in the music business since the days of wax cylinders and piano rolls for the first time in history, music is no longer monetized by selling something; it's monetized by how many times listeners stream a song, and that completely changes the ecosystem of the business. Passman explains in detail since the advent of file sharing technology in the late 1990s to the creation of the iPod, the music industry has been teetering on the brink of a major transformation, and with the newest switch to streaming music, this change has finally come. Passman's comprehensive guide offers timely authoritative information on how to select and hire a winning team of advisors and structure their commissions and fees, navigate the ins and outs of record deals, songwriting, publishing, and copyrights, maximize concert touring, and merchandising deals, and how the game is played in a streaming world. If you want to be in music, you have to read this book.
