Hypertrophic Cardiomyopathy

2013-02-07 This extensively updated edition provides a comprehensive review of hypertrophic cardiomyopathy, the most common genetic disorder of the heart characterized by dysfunctional contractility at the sarcomere level. The disease produces abnormal and oftentimes focal hypertrophy on a macroscopic level that further impairs cardiac performance and may lead to life-threatening arrhythmias. This edition provides a practical approach, establishing evidence-based best practice for all scenarios. Hypertrophic cardiomyopathy provides readers with key points and critical clinical pearls to assist them in managing patients. New chapters have been included on managing hypertension, sleep apnea, coronary artery disease, structural and congenital disease, nutrition, and pharmacotherapies. All aspects of treatment are covered, including medications, pacemakers, and defibrillators, and invasive septal reduction therapy. Both surgical myectomy and alcohol septal ablation are covered, in addition to genetics, family screening, lifestyle concerns, and athletic screening. The practical approach has been reinforced with an expanded emphasis on creating a center of excellence, how to facilitate the multidisciplinary approach, and case-based reviews and discussions with each chapter ending with a post-test. This book is an essential text for cardiology professionals from trainee to board-certified physician and includes important information for interventional cardiologists, cardiac surgeons, cardiac imagers, critical care physicians, sports medicine physicians, genetic counselors, and electrophysiologists.

Far From The Tree

2019 Winner of the Wellcome Book Prize 2014. A New York Times bestseller. Sometimes your child, the most familiar person of all, is radically different from you. The saying goes that the apple doesn't fall far from the tree, but what happens when it does? In interviews with over three hundred families covering subjects including deafness, dwarfs, Down's Syndrome, autism, schizophrenia, disability, prodigies, children born of rape, children convicted of crime, and transgender people, Andrew Solomon documents ordinary people making courageous choices. Difference is potentially isolating but far from the tree it celebrates repeated triumphs of human love and compassion to show that the shared experience of difference is what unites us. Winner of the National Book Critics Circle Award for General Nonfiction and eleven other national awards, winner of the Green Carnation Prize.
