Dreams are there to chase challenge and fulfill exploring a karmic network in 25 320 kilometres after twenty years in the Indian administrative service P G Tenzing throws off the staid life of a bureaucrat to roar across India on an Enfield Thunderbird travelling light with his possessions strapped on the back of his bike on the nine month motorcycle journey without a pre planned route or direction he encounters acquaintances who appear to be from his karmic past from the roadside barber to numerous waiters and mechanics fleeting human interactions and connections that seem pre ordained life on the road is full of pot holes in more ways than one but tzening acquires a wheelie sixth sense he is unfazed by suspicious hotel receptionists or other unkarmic sceptics who take one look at his dishevelled unkempt appearance and ask for an advance or a deposit or both tzening s views on life and death friendship and love are informed by a certain dark humour but his conviction that everything revolves around the sacred bond that humans share with each other and with the universe is deeply felt and inspiring sometime singer with a gangtok band a dabbler in vipassana meditation and a supporter of a monk s school at Mangan Sikkim P G Tenzing is self confessedly at a mid life crisis point and ready for all the adventures this world has to offer the road to koki jar into a goat track or a muddy quagmire with the road climbing to altitude and clinging to the side of a cliff face and you ll not avoid a river crossing either landslides are almost as common as river crossings it takes you out of your comfort zone completely to regions where English is not spoken where the writing is completely unintelligible where you cannot afford to be ill or injured where freedom of movement is restricted and political stability can be a smokescreen it s an unpredictable road journey extremes abound whether it s the late winters and snowbound passes or natural Paul Emery, adventurer and first-time writer, did adventures here and there but longed to do something big and scary like Ranulph Fiennes had done. He went to the poles this desire sat in me like an unbalanced weight giving me a sense that i had to always keep moving and if i didn't something bad would happen. I didn't know what that bad thing was maybe it was a fear to be alone with just my thoughts but i was always on the go and a big expedition like riding a motorcycle unsupported around the world on my own might quell this urge and help me find some peace and let me have my own stories to share. I started writing An Unbalanced Weight and was ready to set out and ride my motorcycle tina around the world. From knife fights in Siberia to jail time in Kazakhstan, Paul quickly learnt the meaning of adventure after arriving back home in England. Paul recounts his tales of fear looking for home and ultimately facing himself on one of the greatest adventures ever told. He decided to ride his motorcycle across Africa, Heather Ellis is faced with a choice: go on one last adventure or wait for the inevitable. Diagnosed with HIV in London in 1995, when she was 20, Paul then spent 93 days traveling from Dubai to Devon and from Argentina to Alaska as well as a two-wheeled epic. It is also the story of personal growth and development for the author. The story that leaves the reader considering their own time less journey called life. It's a51

Motociclistas Con Dos Cojones

2016-09-12

Motociclistas con dos cojones is the tale of an intercontinental bike trip across the western hemisphere traveling from Dubai to Devon, and from Argentina to Alaska, as well as a two-wheeled travel epic. It is also the story of personal growth and development for the author; an honest, engaging, and personal account of an exhilarating motorcycle adventure across the Middle East, Europe, and the Americas despite dealing with challenging road and off-road conditions. Wildlife, local law enforcement, crashes, bureaucracy, and occasional terrible coffee. The author just keeps on going throughout to complete this amazing two-wheeled odyssey with a keen eye for detail, a refreshing openness to meeting new people along the way. The author has totally committed Con dos cojones to completing this journey to the very end as soon as you start reading, you will have the same unswerving motivation to complete this page-turning book covering 26 countries and more than 30,000 miles. David B. Jones weaves a rich narrative tapestry from the characters of his travel companions, the cultures, and the people he meets along the way, preferring to take the paths least trodden. Wherever possible, this book provides fresh and original perspectives on each of the countries and regions visited. The author is a keen biker who has owned a wide variety of modern and classic bikes both on road and off-road models. David has never owned a car and has adapted George Orwell’s famous maxim from Animal Farm as his personal motto; two wheels good, four wheels bad. He also subscribes to the ride to work philosophy. Motociclistas con dos cojones combines his passions for bikes, travel, and writing and the enthusiasm and excitement come through the writing on each page. You don’t have to be a biker to find this book enjoyable and accessible as it is aimed at anyone who enjoys travel writing and the inspiration to push your own personal boundaries to get out there and personally connect with the wide world.

Tina and the Blue Bear

2019-04-08

The best book I’ve ever written, Paul Emery, adventurer and first-time writer. I did adventures here and there, but I longed to do something big and scary like Ranulph Fiennes had done when he went to the poles. This desire sat in me like an unbalanced weight, giving me a sense that I had to always keep moving and if I didn’t do something bad would happen. I didn’t know what that bad thing was, maybe it was a fear to be alone with just my thoughts, but I was always on the go. A big expedition like riding a motorcycle unsupported around the world on my own might quell this urge and help me find some peace and let me have my own stories to share rather than basking in the light of others’ except from the book 26,000 kilometers, 13 countries, 19 times zones in 93 days after only one night away. Paul felt ready to set out and ride his motorcycle Tina around the world from knife fights in Siberia to jail time in Kazakhstan. Paul quickly learnt the meaning of adventure after arriving back home in England, Paul recounts his tales of fear, looking for home, and ultimately facing himself on one of the greatest adventures ever told.

After riding her motorcycle across Africa, Heather Ellis is faced with a choice: go on one last adventure or wait for the inevitable. Diagnosed with HIV in London in 1995 when she took the test for a Russian visa, 'Timeless on the Silk Road' is the story of what happens next. What unfolds is a journey of courage, hardship, and immense natural beauty as she rides along the fabled Silk Roads of antiquity, infused with a deep spiritual power. It is a story that leaves the reader considering their own time less journey called life it's more than just a long motorcycle trip. "The road maybe silk but it is far from smooth," Ted Simon demands. "Timeless on the Silk Road" was published in 2010 and tells the story of a motorcycle odyssey across Africa. It has been a bestseller on Amazon and has received an award for one of the best motorcycling books and one of the best Ubuntu books of all time by BookAuthority. I was enthralled by every page, Cheryl Strayed, Heather Ellis, com.

**Motorcycle Adventurer**

The longest, most difficult, and most perilous motorcycle journey ever attempted by the bicycling world and motorcycle review anyone who desires to diverge from the beaten path and visit points that may be of peculiar interest to them personally. The motorcycle is undoubtedly the only satisfactory means of travel, even in Syracuse Herald's opinion. "One must die sometime and to die with one's boots on is very noble," Carl Stearns Clancy wrote in his travelogue, "The Motorcycle Adventurer," original version authored by Clancy, the travel dreamer thirsting for motorcycle touring. Clancy circled the globe during 1912-1913 on a 1912 motorcycle. There were no GPSs, ATMs, Internet, and often no gas roads or motorcycle repair shops. It describes the first motorcycle global adventure ride by the man who survived a dream quest with his gun determination, grit, and guts. Edited by Dr. Gregory W. Frazier, America's 1 Extreme Motorcycle Adventurer, he has raced, ridden, and repaired motorcycles over 1,000,000 miles and five times around the world. Bestselling author, journalist, film producer, and professional photographer, Frazier's work includes 14 books and 10 films. He says of motorcycle adventures, "I hate adventure that involves snakes or sharks."
