**Schaum’s Quick Guide to Writing Great Research Papers**

2007-06-15

Publishing research papers is a need of academia and researchers across the world. Research papers contribute to the body of scientific knowledge. A research paper should be published in a right journal and hence clear understanding of how to select a journal to how to write and publish a paper is must to an author. This book is a complete guide to writing and publishing a research paper.

**Writing Research Papers**

1996

The journal series consists of reprints of research papers published by the members of the faculty in various periodicals.

**Research Papers**
writing high quality papers suitable for publication within international scientific journals is now an essential skill for all early career researchers their career progression and the reputation of the department in which they work depends upon it however many manuscripts are rejected or sent back for major reworking not because the science they contain is in any way bad but because the same problems keep occurring in the way that the material is presented it is one thing to write a good scientific paper however it is quite another thing to get it published this requires some additional nous in writing this book don harris draws upon nearly a quarter of a century of experience as an author and reviewer of research papers and ultimately as a journal editor by his own admission it contains all the things he wished that his mentors had told him 25 years ago but didn't the material in the book is drawn from many years of finding all these things out for himself usually by trial and error but mostly error the text adopts a much lighter touch than is normally found in books of this type after all who really wants to read a book about writing research papers the author describes his own unique approach to writing journal papers which in his own words has proved to be extremely successful all major points are illustrated with examples from his own published works the book is written in the form of a manual for constructing a journal manuscript read a chapter write a section however the material it contains goes beyond just this and also describes how to select a target journal the manuscript submission process what referees are looking for in a good journal paper and how to deal with the referees comments each chapter concludes with a checklist to ensure all the key elements have been addressed
the definitive research paper guide writing research papers combines a traditional and practical approach to the research process with the latest information on electronic research and presentation

the book has well turned out to be a boon for researchers from academia as well as industry the book seemly meets the requirement and encounters the dilemma of a first time researcher in many ways the basics of research paper writing are taken well care in the previous editions of the handbooks as proceedings published by prestige institute of management and research gwalior the previous editions focused on steps to carry out review of literature setting objectives developing hypothesis selecting appropriate methods as per objectives drawing inferences followed by referencing styles the book not only provides insights to a first time researcher but also introduces them with the latest tools part one of the book presents introduction to e views as chapter 1 the chapter deals with step wise procedure to work with e views elaborately e views is widely used numerous econometric analyses along with statistical analysis e views provided analysis like cross section time series estimates and forecasts as well as does panel data analysis simultaneously chapter 2 is modestly written to introduce mendeley to the researcher mendeley is expedient for
copious objectives like conducting systematic literature review research gap identification setting objectives thereafter and more over provides a most vital efficacy to manage research papers in a stress free manner mendeley is widely used amongst researchers across the globe as a referencing tool as well providing competence to incorporate any style of referencing within fraction of seconds thus taking research on next level part two of the book contains twelve research papers covering diverse domains like finance marketing hr and it the research papers are the sample papers exhibiting the concepts of writing a well structured paper and elaborating the procedures to be followed while writing a research paper the research papers included in the book are developed during the five day national research methodology workshop organized by prestige institute of management and research gwalior the paper writing work was divided into before during and after phases topic finalization measure development review of literature and data collection was done before the initiation of workshop among the teams of registered participants the entire methodology application of data analysis tools and discussion was done during the workshop post workshop i e the after phase was exclusively dedicated for strengthening the review of literature discussion of results and referencing followed by improvement in the overall structure and language of the research paper we hope the efforts put in the book will surely help readers
