to how composers intended them to be interpreted frederick neumann himself a violinist and conductor questions the validity of the rigid principles applied to their performance in this controversial work available for the first time in paperback he argues that strict constraints are inconsistent with the freedom enjoyed by musicians of the period the author takes an entirely new look at ornamentation and particularly that of j s bach he draws on extensive research in england france germany italy and the united states to show that prevailing interpretations are based on inadequate evidence these restrictive interpretations have been far reaching in their effect on style by questioning them this work continues to stimulate a reorientation in our understanding of baroque and post Harpsichord and Lute Music in 17th-Century France 2019-06-12 the works of the 17th century french harpsichord composers the clavecinistes are among the principal treasures of the harpsichord repertoire it is a commmonplace of music histories that their style was strongly influenced by contemporary lutenists yet the assessment of this influence has until now been limited to pointing out a than has been supposed the clavecinistes adopted many details of lute style and an understanding of these is essential for the proper performance of their works more importantly the lute style opened up the possibility of an entirely new expressive dimension in the playing of the harpsichord in exploring this the clavecinistes evolved a style which dominated european keyboard music in the 17th The Music of Carl Philipp Emanuel Bach 2014

of the four sons of J. S. Bach who became composers, Carl Philipp Emanuel 1714–88 was the most prolific, the most original, and the most influential both during and after his lifetime. This first full-length English language study critically surveys his output, examining not only the famous keyboard sonatas and concertos but also the songs, chamber music, and sacred works many of which resurfaced in 1999 and have not previously been evaluated. The book also outlines the composer's career from his student days at Leipzig and Frankfurt Oder to his nearly three decades as court musician to Prussian King Frederick the Great and his last twenty years as cantor at Hamburg. Focusing on the composer's choices within his social and historical context, the book shows how C. P. E. Bach deliberately avoided his father's style while adopting the manner of his Berlin colleagues derived from Italian opera. A new perspective on the composer emerges from the demonstration that C. P. E. Bach best known for his virtuoso keyboard works refashioned himself as a writer of vocal music and popular chamber compositions in response to changing cultural and aesthetic trends. Supplementary texts and musical examples are included on a companion website. David Schulenberg is professor of music at Wagner College and teaches historical performance at the Juilliard School. He is the author of the Music of Wilhelm Friedemann Bach, University of Rochester Press 2010.

Creative Health for Pianists 2023

creative health for pianists is a practical method for musicians of all abilities. It proposes a new way of thinking about the piano, emphasizing your frame of mind and your innate capacity to respond creatively to a musical and technical stimulus. Short musical snippets that encapsulate one or more aspects of piano playing are thoroughly presented and explained, then developed through tweaks, variations, and compositions of ever-increasing complexity. Musical materials are designed to give you space and time to think about how you want to play the piano. Sound, vibration, touch, and phrasing can then become integrated into a healthy totality. Every chapter contains materials suited to a complete beginner. Paradoxically, the same materials may be helpful to accomplished pianists interested in a new entry point into the labyrinth of music. The method is supported by a dedicated website with 48 pedagogical clips. All materials are original and presented here for the first time.
