one thousand ways to make money the object of this work is to help people who are out of employment to
secure a situation to enable persons of small means to engage in business and become their own employers to
give men and women in various lines of enterprise ideas whereby they may succeed and to suggest new roads
to fortune by the employment of capital the author has been moved to the undertaking by the reflection that
there exists nowhere a book of similar character there have indeed been published a multitude of books
which profess to tell men how to succeed but they all consist of merely professional counsel expressed in
general terms we are told that the secrets of success are industry and accuracy the grasping of every
opportunity being wide awake getting up early and sitting up late and other cheap sayings are quite as well
known to the taker as to the giver even men who have made their mark when they come to treat of their
career in writing seem unable to give any concrete suggestions which will prove helpful to other struggling
thousands but simply tell us they won by hard work or by close attention to business the author of this book
has gone to work on a totally different plan i have patiently collected the facts in the rise of men to wealth
and power have collated the instances and instruments of fortune and from these have sifted out the real
secrets of success when as in a few cases the worn out proverbs and principles are quoted these are
immediately reinforced by individual examples of persons who attributed their advancement to the following
of these rules but in general the suggestions are new and in very many cases plans and lines of work are
proposed by the author which are entirely original and so far as he knows absolutely untried hence the work becomes of incomparable value to businessmen who are constantly seeking new means to interest the public and to dispose of their goods. Of course, the vast field of action treated of in this work lies beyond the experience of anyone man but the author has talked with businessmen in every walk in life and gleaned from them the essential facts in their career. In many instances, these facts are not the things they have done but the things they would do if they could begin again thus giving the reader the benefit both of their success and failure. As a book offering opportunities to the ambitious, presenting openings to those seeking a wider scope for their faculties, affording stimulation to persons of sluggish blood and giving away trade and business secrets never before divulged, the author feels confident that the little work stands unrivaled and as such he modestly offers it to the public for its approval. as Dr. Franklin truly says as plain as the road to the mill P. T. Barnum, the great American showman of the 19th century, wrote this short book about making and keeping money, he certainly had life experiences that qualify him for the subject. He started a small newspaper in his twenties, bought and transformed a museum into a showplace for curiosities, built a circus empire that gave performances in America and Europe, promoted a performing tour of a singer, fell into debt in the 1850s and pulled himself out by lecture tours, was a mayor and founded a hospital. Excerpts:

Those who really desire to attain an independence have only to set their minds upon it and adopt the proper means as they do in regard to any other object which they wish to accomplish and the thing is easily done but however easy it may be found to make money, I have no doubt many of my hearers will agree it is the most difficult thing in the world to keep it true economy consists in always making the income exceed the outgo unless a man enters upon the vocation intended for him by nature and best suited to his peculiar genius, he cannot succeed. I am glad to believe that the majority of persons do find their right vocation, yet we see many who have mistaken their calling. His advice is indicated by the chapter titles:

- Don't mistake your vocation
- Select the right location
- Avoid debt
- Persevere
- Whatever you do, do it with all your might
- Use the best tools
- Don't get above your business
- Learn something useful
- Let hope predominate but be not too visionary
- Don't scatter your powers
- Be systematic
- Read the newspapers
- Beware of outside operations
- Don't indorse without security
- Advertise your business
- Don't read the other side
- Be polite and kind to your customers
- Be charitable
- Don't blab
- Preserve your integrity
- Make money
- Have fun

add to cart the book is packed with practical advice that we ve heard before but need hearing again despite this i struggled reading this book because of the disconnect between what i was reading and who barnum was he talks about valuing your customers and operating with integrity which are very good things however barnum was a scam artist and hoaxer who manipulated the people who came to see his shows this book is written in the format of listing the golden rules for making money according to pt barnum there was a movie released recently called the greatest showman about pt barnum s success even though the book is written from the perspective of an earlier time the terminology was not difficult to apply to today before the rules are laid out the introduction makes it sound simple and easy to make money it says it s not difficult to make money and the road to wealth is plain but it then explains that it s only easy for people who really understand economics examples were given of saving on many small expenses that make it feel like you are trying to save more money when many people that do that end up spending more on one thing that is something much more expensive that they could do without the introduction also says that some of the worst reasons people spend more money than they have are due to what can be called sinful behaviors they want to keep up with their neighbors and be seen as successful or they have bad habits like tobacco that cost money and ruins their health or they drink too much that not only cost money and ruins their health but also does not let them think clearly the art of money getting golden rules for money making written by p t barnum is a very noble helpful and inspiring read still until this day barnum is basically listing out the different ways he believes are helpful to not only getting but attaining money as well while going into detail as how to do such the way he gets his point across in the book is surprisingly relatable often telling stories that almost anyone can relate to his main point in regards to obtaining money is that there are a lot of ways in which one needs to be smart in how they go about and what they do with the money they receive barnum separates the topics in his book by stating exact phrases that coincide with what you should do with your money such as avoid debt use the best tools
advertise your business and preserve your integrity it seems that in sectioning off his book in that way he wanted to make it easier for people to find the section that best applies to the circumstance they are currently in why is this book on how to make money online and increase your traffic different this book is different since it describes only reliable sites where you can earn reasonable passive and active income online and ways to increase traffic that really work it s been ranked a 1 seller in interactive and multimedia technology you will learn how to earn passive streams of online income when you don t have traffic how to increase your traffic how to earn passive streams of online income when you do have traffic how to earn active online income how to earn with mobile apps when you download the app to your smartphone and easily earn active income you can decide which of the over 80 sites are most suitable for you to pursue you will discover it s not difficult to make money online when we first started we wished we had a straightforward book like this to explain effective and current ways to earn reasonable online income and increase traffic there is no sales hype in this book we are not selling you anything in this book reading this book makes it easier to learn about online income and increasing your traffic since it clears you away from the ads and distractions on web pages sit back and relax and see what methods of making money and increasing traffic interest you you will find it s not hard to make money online if you use reliable and realistic methods if your goal is to be happy and have streams of online income then you should read this book so are you ready to get rich in 30 minutes is that even possible it of course is if you change your attitude towards how you can make money besides i also guarantee that by the time you finish reading this book which might take 30 minutes or so on average you will have become rich within yourself you will also learn what money is the best ways you can make money and some of the fastest ways through which you can get rich this isn t any self affirmation guide this book is full of practical tips that you can put into practice in real life and see the results for yourself for me during the course of my learning it was an art now since it is learned understood and assimilated i have converted it into
as much of a science as possible the steps given in this book are easy practical and definitive this book is also meant to be universally applicable and not meant for one particular region or continent as the steps detailed in the book can be applicable in almost all parts of the world local laws and certain nuances may differ from one region to another but the book by default and intention suggests only legal ways of getting rich if we have only a very narrow understanding or attitude towards money we will neither make enough money nor get rich ever the paradigm shift in attitude from simplistic cause and effect work and reward assumptions on money to embracing the slight grey area around how money is made can make you rich three easy ways to make money 1 don't be too honest and righteous 2 it is good to learn legal ways of tax avoidance 3 it is okay to use other people's money opm the real trick is in not attracting most of the usual taxes on your income by changing the terms through which you get paid business can hardly happen without talking deals much of what i've done in business resulted out of talking deals with others you have to talk deals with creditors investors banks landlords raw material suppliers equipment suppliers customers buyers and clients so basically there is no business without talking deals large establishments can keep growing for an indefinite period of time with all their power and might but they will also reach saturation sooner than a new entrant into the business new entrants in an industry are always a threat to the existing players with innovation you will be surprised how existing competition is uprooted to make way for you because nature loves innovation innovators and new way of doing things your ability and flexibility to adapt will sure break the rigid structure of an existing corporation so you make way for yourself when you see something from a completely different vantage point even if the reality you believe in is based on fact you can create new facts as long as it is not hard science you can create new logic and override existing ones most of the investors trust human potential more than anything else as it is other people that make their money for them almost 90 of the billionaires have become rich by leveraging other people's money most billionaires stories are usually rags to riches and
there have been very few instances of heirs carrying a legacy forward classically steve jobs started out of a garage so did jeff bezos mark zuckerberg didn t have all the money to make it big neither did bill gates nor did warren buffett almost all of them leveraged other people s money to become billionaires it is not the most difficult thing to earn investors trust you can invest only very few thousand dollars the size of your investment may grow into millions or even billions of dollars 78 percent of workers are living from paycheck to paycheck we spend one third or more of our days at work work defines us as people when we aren t happy at work other areas of our life will suffer yet close to more than 80 percent of workers say they don t feel satisfied with their job this is a serious matter if we look at it from a long term perspective it s understandable that it takes courage to leave a job and its security for a lot of people we need that paycheck to sustain our living but when an individual is in a job that lacks growth and is fostering complacency there is a lack of worth we ll feel innate that our value is not as high as we would like this can make us feel trapped working doing something you don t like or enjoy can feel like a waste of your precious time but if we have a plan and know how to have money working for you it would be a total game changer in this book we ll take a closer look at exactly where you are financially and how you can quickly get to financial independence from where you are currently learn how money can work you you will discover what it means to not follow the rat how to not living paycheck to paycheck why knowing your strengths are important how to apply killing two birds with one stone the truth about generating assets the key to true financial freedom discover different strategies for everyone it is important to realize that money is a tool that can help you to achieve your goals knowing how money works are just as important as having a healthy body but the truth is that most schools don t teach financial literacy and as a result many people do not make economically rational decisions on their finances this book is for you if don t want to live paycheck to paycheck hate your job but you need the money value your time more than materialistic things want to retire early don t want to stress about money if one of those
applies to you perhaps you have found the right book this book is essential for you to break through the rat race and to achieve financial freedom so you can do whatever you want without money having to factor into your decisions are you ready to make a change download now and start having money working for you scroll to the top of the page and select the buy button p t barnum the great american showman of the 19th century wrote this short book about making and keeping money he certainly had life experiences that qualify him for the subject he started a small newspaper in his twenties bought and transformed a museum into a showplace for curiosities built a circus empire that gave performances in america and europe promoted a performing tour of a singer fell into debt in the 1850s and pulled himself out by lecture tours was a mayor and founded a hospital excerpts those who really desire to attain an independence have only to set their minds upon it and adopt the proper means as they do in regard to any other object which they wish to accomplish and the thing is easily done but however easy it may be found to make money i have no doubt many of my hearers will agree it is the most difficult thing in the world to keep it true economy consists in always making the income exceed the out go in the united states where we have more land than people it is not at all difficult for persons in good health to make money in this comparatively new field there are so many avenues of success open so many vocations which are not crowded that any person of either sex who is willing at least for the time being to engage in any respectable occupation that offers may find lucrative employment those who really desire to attain an independence have only to set their minds upon it and adopt the proper means as they do in regard to any other object which they wish to accomplish and the thing is easily done but however easy it may be found to make money i have no doubt many of my hearers will agree it is the most difficult thing in the world to keep it the road to wealth is as dr franklin truly says as plain as the road to the mill it consists simply in expending less than we earn that seems to be a very simple problem mr micawber one of those happy creations of the genial dickens puts the case in a strong light when he says that to have annual income of
twenty pounds per annum and spend twenty pounds and sixpence is to be the most miserable of men whereas
to have an income of only twenty pounds and spend but nineteen pounds and sixpence is to be the happiest of
mortals many of my readers may say we understand this this is economy and we know economy is wealth we
know we can’t eat our cake and keep it also yet i beg to say that perhaps more cases of failure arise from
mistakes on this point than almost any other the fact is many people think they understand economy when
they really do not in the united states where we have more land than people it is not at all difficult for persons
in good health to make money in this comparatively new field there are so many avenues of success open so
many vocations which are not crowded that any person of either sex who is willing at least for the time being
to engage in any respectable occupation that offers may find lucrative employment those who really desire to
attain an independence have only to set their minds upon it and adopt the proper means as they do in regard
to any other object which they wish to accomplish and the thing is easily done but however easy it may be
found to make money i have no doubt many of my hearers will agree it is the most difficult thing in the world
to keep it the road to wealth is as dr franklin truly says as plain as the road to the mill it consists simply in
expending less than we earn that seems to be a very simple problem mr micawber one of those happy
creations of the genial dickens puts the case in a strong light when he says that to have annual income of

**ONE THOUSAND WAYS TO MAKE MONEY 2021-01-01**

one thousand ways to make money the object of this work is to help people who are out of employment to secure a situation to enable persons of small means to engage in business and become their own employers to give men and women in various lines of enterprise ideas whereby they may succeed and to suggest new roads to fortune by the employment of capital the author has been moved to the undertaking by the reflection that there exists nowhere a book of similar character there have indeed been published a multitude of books which profess to tell men how to succeed but they all consist of merely professional counsel expressed in general terms we are told that the secrets of success are industry and accuracy the grasping of every opportunity being wide awake getting up early and sitting up late and other cheap sayings are quite as well known to the taker as to the giver even men who have made their mark when they come to treat of their career in writing seem unable to give any concrete suggestions which will prove helpful to other struggling thousands but simply tell us they won by hard work or by close attention to business the author of this book has gone to work on a totally different plan i have patiently collected the facts in the rise of men to wealth and power have collated the instances and instruments of fortune and from these have sifted out the real secrets of success when as in a few cases the worn out proverbs and principles are quoted these are immediately reinforced by individual examples of persons who attributed their advancement to the following of these rules but in general the suggestions are new and in very many cases plans and lines of work are
proposed by the author which are entirely original and so far as he knows absolutely untried hence the work becomes of incomparable value to businessmen who are constantly seeking new means to interest the public and to dispose of their goods. Of course the vast field of action treated of in this work lies beyond the experience of anyone man but the author has talked with businessmen in every walk in life and gleaned from them the essential facts in their career in many instances these facts are not the things they have done but the things they would do if they could begin again thus giving the reader the benefit both of their success and failure as a book offering opportunities to the ambitious presenting openings to those seeking a wider scope for their faculties affording stimulation to persons of sluggish blood and giving away trade and business secrets never before divulged the author feels confident that the little work stands unrivaled and as such he modestly offers it to the public for its approval. The Art of Money Getting 2016-09-23

The art of money getting or golden rules for making money is a book written by Phineas Taylor Barnum in the United States where we have more land than people. It is not at all difficult for persons in good health to make money in this comparatively new field. There are so many avenues of success open, so many vocations which are not crowded that any person of either sex who is willing at least for the time being to engage in any respectable occupation that offers may find lucrative employment. Those who really desire to attain an independence have only to set their minds upon it and adopt the proper means as they do in regard to any other object which they wish to accomplish. And the thing is easily done but however easy it may be found to make money, I have no doubt many of my hearers will agree it is the most difficult thing in the world to keep it. The road to wealth is as plain as the road to the mill. It consists simply in expending less than we earn that seems to be a very simple problem. Mr. Micawber, one of those happy creations of the genial Dickens, puts the case in a strong light when he says that to have annual income of twenty pounds per annum and spend twenty pounds and sixpence is to be the most miserable of men whereas to have an income of only twenty pounds and spend but nineteen pounds and sixpence is to be the happiest of mortals. Many of my readers may say we understand this. This is economy and we know economy is wealth. We know we can’t eat our cake and keep it also. Yet I beg to say that perhaps more cases of failure arise from mistakes on this point than almost any other. The fact is, many people think they understand economy when they really do not. True economy is misunderstood and people go through life without properly comprehending what that principle is. One says I have an income of so much and here is my neighbor who has the same. Yet every year, he gets something ahead and I fall short. Why is it? I know all about economy. He thinks he does but he does not. There are men who think that economy consists in saving cheese parings and candle ends in cutting off two
pence from the laundress bill and doing all sorts of little mean dirty things economy is not meanness the misfortune is also that this class of persons let their economy apply in only one direction they fancy they are so wonderfully economical in saving a half penny where they ought to spend twopence that they think they can afford to squander in other directions a few years ago before kerosene oil was discovered or thought of one might stop overnight at almost any farmer's house in the agricultural districts and get a very good supper but after supper he might attempt to read in the sitting room and would find it impossible with the inefficient light of one candle the hostess seeing his dilemma would say it is rather difficult to read here evenings the proverb says you must have a ship at sea in order to be able to burn two candles at once we never have an extra candle except on extra occasions these extra occasions occur perhaps twice a year in this way the good woman saves five six or ten dollars in that time but the information which might be derived from having the extra light would of course far outweigh a ton of candles but the trouble does not end here feeling that she is so economical in tallow candies she thinks she can afford to go frequently to the village and spend twenty or thirty dollars for ribbons and furbelows many of which are not necessary this false connote may frequently be seen in men of business and in those instances it often runs to writing paper

however easy it may be found to make money i have no doubt many of my hearers will agree it is the most
difficult thing in the world to keep it the road to wealth is as dr franklin truly says as plain as the road to the
mill it consists simply in expending less than we earn that seems to be a very simple problem many of my
readers may say we understand this this is economy and we know economy is wealth we know we can t eat
our cake and keep it also yet i beg to say that perhaps more cases of failure arise from mistakes on this point
than almost any other the fact is many people think they understand economy when they really do not true
economy is misapprehended and people go through life without properly comprehending what that principle

the book is packed with practical advice that we've heard before but need hearing again despite this I struggled reading this book because of the disconnect between what I was reading and who Barnum was he talks about valuing your customers and operating with integrity which are very good things however Barnum was a scam artist and hoaxer who manipulated the people who came to see his shows this book is written in the format of listing the golden rules for making money according to PT Barnum there was a movie released recently called the greatest showman about PT Barnum's success even though the book is written from the perspective of an earlier time the terminology was not difficult to apply to today before the rules are laid out the introduction makes it sound simple and easy to make money it says it's not difficult to make money and the road to wealth is plain but it then explains that it's only easy for people who really understand economics examples were given of saving on many small expenses that make it feel like you are trying to save more
money when many people that do that end up spending more on one thing that is something much more expensive that they could do without the introduction also says that some of the worst reasons people spend more money than they have are due to what can be called sinful behaviors they want to keep up with their neighbors and be seen as successful or they have bad habits like tobacco that cost money and ruins their health or they drink too much that not only cost money and ruins their health but also does not let them think clearly the art of money getting golden rules for money making written by p t barnum is a very noble helpful and inspiring read still until this day barnum is basically listing out the different ways he believes are helpful to not only getting but attaining money as well while going into detail as how to do such the way he gets his point across in the book is surprisingly relatable often telling stories that almost anyone can relate to his main point in regards to obtaining money is that there are a lot of ways in which one needs to be smart in how they go about and what they do with the money they receive barnum separates the topics in his book by stating exact phrases that coincide with what you should do with your money such as avoid debt use the best tools advertise your business and preserve your integrity it seems that in sectioning off his book in that way he wanted to make it easier for people to find the section that best applies to the circumstance they are currently in

Get Rich in 30 Minutes: Four Easy Practical Steps to Make Money

2018-09-02

so are you ready to get rich in 30 minutes is that even possible it\'s of course is if you change your attitude towards how you can make money besides i also guarantee that by the time you finish reading this book which might take 30 minutes or so on average you will have become rich within yourself you will also learn what money is the best ways you can make money and some of the fastest ways through which you can get
rich this isn’t any self affirmation guide this book is full of practical tips that you can put into practice in real life and see the results for yourself for me during the course of my learning it was an art now since it is learned understood and assimilated i have converted it into as much of a science as possible the steps given in this book are easy practical and definitive this book is also meant to be universally applicable and not meant for one particular region or continent as the steps detailed in the book can be applicable in almost all parts of the world local laws and certain nuances may differ from one region to another but the book by default and intention suggests only legal ways of getting rich if we have only a very narrow understanding or attitude towards money we will neither make enough money nor get rich ever the paradigm shift in attitude from simplistic cause and effect work and reward assumptions on money to embracing the slight grey area around how money is made can make you rich three easy ways to make money 1 don’t be too honest and righteous 2 it is good to learn legal ways of tax avoidance 3 it is okay to use other people’s money opm the real trick is in not attracting most of the usual taxes on your income by changing the terms through which you get paid business can hardly happen without talking deals much of what i’ve done in business resulted out of talking deals with others you have to talk deals with creditors investors banks landlords raw material suppliers equipment suppliers customers buyers and clients so basically there is no business without talking deals large establishments can keep growing for an indefinite period of time with all their power and might but they will also reach saturation sooner than a new entrant into the business new entrants in an industry are always a threat to the existing players with innovation you will be surprised how existing competition is uprooted to make way for you because nature loves innovation innovators and new way of doing things your ability and flexibility to adapt will sure break the rigid structure of an existing corporation so you make way for yourself when you see something from a completely different vantage point even if the reality you believe in is based on fact you can create new facts as long as it is not hard science you can create new logic and override
existing ones most of the investors trust human potential more than anything else as it is other people that make their money for them almost 90 of the billionaires have become rich by leveraging other people's money most billionaires stories are usually rags to riches and there have been very few instances of heirs carrying a legacy forward classically steve jobs started out of a garage so did jeff bezos mark zuckerberg didn't have all the money to make it big neither did bill gates nor did warren buffett almost all of them leveraged other people's money to become billionaires it is not the most difficult thing to earn investors trust you can invest only very few thousand dollars the size of your investment may grow into millions or even billions of dollars
