**Dad's Best Memories and Recollections 2016-01-19**

dad's best memories and recollections is chazzz humber's epitaph casting a very long and sentimental shadow across north america and beyond this 230 page volume is his granite monument well polished it lavishly records 125 of his best memories over a life span of nearly eighty years the vignettes are serenaded with more than 400 illustrations those discovering this volume likely will find themselves wanting to record in their own sunset years their personal memories and recollections and when they do they are apt to recall what it was like to live in their fluctuating world dominated by a variety of personalities and cascading events mr humber vividly describes what it was like in 1945 to travel in a 1930 model a ford from toronto to boston with lively enthusiasm he reports what it was like to live in post world war ii boston to cook a lobster for a former president of the united states or to sell a pair of elevator shoes to one of hollywood's shortest celebrities or to shine the shoes of a derby hatted father of a future president of the united states it is not a remarkable achievement to reflect to recall or to have memories that are treasured but to tell them with literary aplomb to recall the events that happened nearly seventy five years ago with utmost clarity is definitely an admirable achievement and should be cherished not only by the kin who follow mr humber but by those who might like to imitate what he has monumentally achieved in dad's best memories and recollections

jim gaffigan never imagined he would have his own kids though he grew up in a large irish catholic family jim was satisfied with the nomadic nocturnal life of a standup comedian and was content to be that weird uncle who lives in an apartment by himself in new york that everyone in the family speculates about but all that changed when he married and found out his wife jeannie is someone who gets pregnant looking at babies five kids later the comedian whose riffs on everything from hot pockets to jesus have scored millions of hits on youtube started to tweet about the mistakes and victories of his life as a dad those tweets struck such a chord that he soon passed the million followers mark but it turns out 140 characters are not enough to express all the joys and horrors of life with five kids so he's now sharing it all in dad is fat from new parents to empty nesters to jim's twenty something fans everyone will recognize their own families in these hilarious takes on everything from cousins celebrities for little kids to growing up in a big family i always assumed my father had six children so he could have a sufficient lawn crew to changing diapers in the middle of the night like the hurt locker but much more dangerous to bedtime aka negotiating with terrorists dad is fat is sharply observed explosively funny and a cry for help from a man who has realized he and his wife are outnumbered in their own home

the dynamics of powerful parenting is a book about power the power held by a parent to shape the development of a child and the power of a child to either accept or reject those efforts often when things are not working well for parents with their children they will continue doing the same things yet with ever more vigor usually the result will be more of the same only worse a secret to understanding the dynamics of many human behaviors lies in the paradox of the chinese finger puzzle aka chinese handcuff the chinese finger puzzle is a tube woven from bamboo shoots that is several inches long and about the diameter of a person s fingers true to its nature the tube will narrow as its ends are pulled thus when the tube is slipped over the ends of fingers or thumbs on opposing hands the subject s efforts to pull his or her fingers apart are met with increasing resistance from the device so it is with much of being human the thing that people wish to avoid most is the very thing that results from their efforts to do so dynamics is a book written with this paradox in mind it is a book of insights about parenting that turns upside down many of the things that are currently held dear in traditional parenting efforts it is a book that downplays the use of punishment but never overlooks the need for discipline and responsibility dynamics encourages parents to think about what they are doing how they are doing it and what are they are experiencing as a result then provides useful tools for changing undesired outcomes it is a book that can produce positive results that will benefit generations yet unborn
